COMPANY OVERVIEW

Founded in 2018, JK Projects UK is a principal contractor for the construction industry based in Newry, Northern Ireland operating throughout the UK and within Ireland.

We specialise in the demolition, construction, and fit-out of buildings; offering a personalised service aiming to exceed our clients, staff and consultant's expectations.

People are at the heart of JK Projects UK and we focus all our efforts on delivering them the best end result. From the outset, we remove the hassle by making complex situations clear, allowing our clients to enjoy the construction and design process. We may be new to the industry but our people are industry experts with the correct mindset and an attitude to build to impress.

SERVICES

We are proud to offer a complete package for our clients from demolition to fit out. We understand that our projects are not just about finishing the project but about creating value for our clients and allowing their ideas to come to life. Our overall goal is to create a lasting relationship with our clients.

Demolition

When you require demolition, strip out or deconstruction you can rely on JK Projects UK to provide expert advice and excellent quality service.

Construction

From start to finish, our project managers listen carefully to your design and construction needs to develop a deeper understanding of your vision.

Fit Out

JK Projects UK provides professional and high-quality fit-outs and refurbishments for a wide range of sectors within the UK and Ireland.

Demolition

When you require demolition, strip out or deconstruction you can rely on JK Projects UK to provide expert advice and excellent quality service. We are able to handle any type of demolition project required by our clients and approach each project with precision and a detailed plan.

As a specialist demolition contractor, we use a variety of machinery, tools, and methods that ensure our customers the most cost-effective results. Therefore, before every demolition is carried out your site will be visited by our experienced team who will design a tailored ground remediation solution to meet the needs of our customers, ensuring that every project will be carried out safely and in a controlled manner.

To minimise our impact on the environment, we ensure that any contaminants or pollutants are removed from the site and are safely disposed of at a waste management site or at a specialist centre. The result is a prepared site ready for the next stage of development in their project, ensuring that the site and any neighbouring buildings or infrastructure can function safely.

Why Choose Us?

Fully Insured

We are fully insured to demolish, deconstruct or strip any building to your requirements.

UK and Ireland Based

We have experience in delivering demolition services throughout the UK and Ireland.

Controlled Demolitions

We have experience in the controlled demolition, deconstruction and strip out of commercial and industrial structures

Clearing sites after demolition

No matter the size of the demolition we ensure that your site is cleared quickly and safely, ready for development.

Asbestos Removal

At JK Projects UK we also offer a wide range of asbestos removal, encapsulation and decontamination services as part of our demolition services. Our asbestos management service covers every stage of the removal and disposal process, allowing all manner of asbestos removal and disposal to be carried out efficiently and safely. We ensure that your asbestos removal is carried out by a team that is fully trained to UKATA Non-Licensed Asbestos Removal.

Construction

JK Projects UK is a UK and Ireland wide contractor specialising in bringing our clients vision to life. We aim to maximise the value for our clients in both the private and public sector, promoting a zero compromise on health and safety approach. From start to finish, our project managers listen carefully to your design and construction needs to develop a deeper understanding of your vision.

Our objective is to discover innovative and creative ways to deliver exceptional buildings while working with our clients to ensure that their project is completed on-time and within their budget.

We offer a new build capacity throughout all sectors, creating spaces to allow people and businesses to thrive. We also offer restoration and renovation of properties to clients, turning old and tired buildings into inviting and energetic living and working spaces.

An individual project team will be allocated to each project to ensure that our clients have fixed contacts and that the team is dedicated to the project. We take full control of each construction project and assume all responsibility. We also will carry out regular construction site reports to keep our clients up-to-date with the progression of their project.

Why Choose Us?

Fully Insured

We are fully insured to construct any building, to your requirements.

UK and Ireland Based

We have experience in delivering our construction services throughout the UK and Ireland.

Full Package

Qualified workmen/women, reliable service and competitive pricing.

Detailed Plan

We provide detailed work programmes to our clients throughout the project.

Fit Out

JK Projects UK provides professional and high-quality fit-outs and refurbishments for a wide range of sectors within the UK and Ireland. Our experienced team ensures that your project runs smoothly by being up-to-date with custom fit-out trends, employing experienced and trusted workmen and supervisors and ensuring materials are consolidated.

By focusing on your needs we work with your design team and consultants to create a space that meets your business needs enabling us to deliver a high-quality and innovative project that adds value to your business.

We realise that businesses that need change will require a specialist team that is equipped and experienced to take on the pressure. Our team will work on any schedule no matter how demanding and will ensure that the clients' experience throughout the project is positive and enjoyable as possible.

Overall, at JK Projects UK our objective is to create vibrant, unique and profitable spaces for our clients that support their business strategies.

Why Choose Us?

We are fully insured to fit out any building, to your requirements.

UK and Ireland Based

We have experience in delivering our fit out services throughout the UK and Ireland.

Always Care

We are committed to building strong, deep and productive relationships with our customers.

Flexible fitting solutions

We can design and install your fit out needs from initial brief or in line with drawings prepared by an architect

PROJECTS

PINs Social Club

“It was our first project together so we've been trying to figure out what everything is while on site and JK Projects UK have been great in helping us to do that by helping us step by step and also with any requirements we've made on site they've always been accommodating.”

- *Daniel Gillbanks*
Co-Founder

Location - Liverpool

Contract Value - £3.5million

Project Type - Demolition, Construction and Fit Out

Contract Length - 1 year

Project Scope:

The architect's intent was to break away from the idea of a traditional ten pin bowling alley by introducing the game as a fashionable evening activity for adults. The key was to turn it into an immersive, dynamic and fun-fuelled venue and having a 60s theme throughout.

Beginning in November 2018 and finishing at the end of January 2020, we refurbished the car park into a state of the art bowling alley. In doing so, we have provided a dynamic space for entertainment seekers in the city of Liverpool.

Our works programme consisted of the demolition and decommissioning of the initial building, the construction work and a full Category A and Category B interior fit-out on Duke Street to transform it into a state of the art bowling alley.
